

CBS Industrial Metalworking:

CNC Machine Tool Coolants:

- **CBS HC-957** (Soluble Oil) Specialty Lube Blend. Mineral oil based. Clean running. EP additives. Bio-stable. Universal machining applications. Excellent wetting and rinsing. High quality surface finish. Ferrous and Non-Ferrous metals.
- **CBS SOL-9150C** (Soluble Oil) Specialty Lube Blend, High- Mineral, Veg oil based. Clean running. EP additives. Bio-stable. Diversity of applications. Ferrous and Non-Ferrous metals. Excellent wetting and rinsing. High-quality surface finish.
- **CBS SSD-695** (Synthetic) Superior Synthetic Blend. Blanchard Grinding and General Machining. Excellent wetting.
- **CBS SYN-9000** (Synthetic) Superior Complex Synthetic Blend. HD Machining and Grinding. Rust Inhibitors. EP additives.
- **CBS TSOL-365** (Soluble Oil-Trim) Premium Soluble Mineral Oil Blend. Tool Grinding and Machining. Sassafras Scent.
- **CBS SCF-8270** (Semi-Synthetic) Premium Semi-Synthetic Blend. Cast Iron applications. Ferrous and Non-Ferrous Metals.

Fine Blanking and Deep Draw Stamping:

- **CBS FB-1270** Premium Fine Blanking Oil formulated for state-of-the-art tooling technology. Premium Blended for consistent performance when tight dimensional tolerancing demand it. Chlorine free.
- **High-Performance Fine Blanking Oils. Blended precisely for your specific component material and tooling details.**
- **Chlorinated and Non-Chlorinated Solutions.**
- **CBS SYN DRAW-625** Synthetic Blend, Precision Deep Draw Stamping Compound. EP additives. Medium and Heavy-Duty applications. Post processing cleanability.
- **Precision Blended Drawing and Stamping Compounds.**

Hydraulic Oils/Way Lubes/Gear Oils/Process Lubricants:

- **CBS ISO AW-68** Premium Hydraulic Oil. ASTM D6158-18.
- **CBS ISO AW-32** Premium Hydraulic Oil. ASTM D6158-18.
- **CBS ISO AW-46** Premium Hydraulic Oil. ASTM D6158-18.
- **CBS ISO-68** Premium Way Lube 68, Replaces ExxonMobil Vactra #2.
- **CBS Gear Oil 220** Premium Gear Oil. Replaces ExxonMobil 220.
- **CBS SCO-100** Premium Synthetic Compressor Oil. Specialty blended for extended fluid life in hot temperatures.
- **Manufacturing Greases and Specialty Lubes. Pilot Lubes. Boundary Lubes.**
- **Quench Oils. CBS QT-85.** Replaces Houghto-Quench FTR. Fast quench with thermal stability. Oxidation resisting.
- **Premium Hone Oil. Automotive and Motorcycle Racing Industry. Engine Cylinder Head Honing applications.**
- **Premium Broach Formulas. Designed for Internal and External broaching. Horizontal and Vertical applications.**

Facility Cleaning:

- **CBS FC-3** Concentrated alkaline cleaner. Premium Floor Cleaner. Scrubber and Mop Buckets. General facility cleaning.
- **CBS CLNSUMP-LF** CNC Machine Tool Sump Cleaner. Coolant Tank system purge.
- **CBS SPRAY CLEAN-2000** Industrial washer system piping and tank cleaner. System purge. Validated performance.
- **Hydraulic Tank and Pump System Cleaner and Treatment.**
- **Disinfectants and Sanitizers. Alcohol Cleaner for laboratory and inspection equipment cleansing.**
- **Water Treatments.**

Post Processing Cleaning and Protecting:

- **Cleaners and Rust Inhibitors for Industrial Cleaning Systems. Premium formulas ranging from Ambient temperature to High temperature and High-Heat air blow-off applications. Water-Based Synthetics.**
- **Oil Based RP's solutions for long term indoor storage protection. Water-Displacing. Cast iron and ferrous metals.**
- **Premium Blended Solutions for Rotary deburring and Tumble finish applications.**
- **Premium oils and additives enhancing performance of your equipment and capabilities.**

Modern industrial machines demand innovative performance lubricants. Protect your components and machinery from Start to Finish!

Schedule a test today! Soluble Oil CNC Machine Tool Coolant: CBS SOL-9150C

Choose CBS to deliver your *solution* in quality manufacturing fluids and lubricants!
